

JUNIOR

## .Net/C# DEVELOPER (M/F)

O2XP is looking for new colleagues for its teams of motivated and innovative Engineers.

You are autonomous, creative and productive. You communicate in English (French or German an asset). You love what you do and you share ideas with your colleagues. You are at the right place!

### Typical Tasks / Responsibilities

- Analyze, design, develop, test and maintain IT applications;
- Produce technical and functional specifications of existing and/or new applications/services;
- Interact/cooperate with teams across multiple locations (functional, development and testing teams);

### Required skills

- Good technical expertise in C#, .NET Core, MS Azure, Azure SQL, MS SQL, MS Entity Framework, ASP.NET MVC, Javascript, Bootstrap, HTML, SQL;
- Capacity to quickly understand and enhance existing applications;
- Good understanding of Messaging (OAQ, AMQ, ...) and Service Oriented Architecture (SOA) concepts;
- Ability to work in a team distributed across multiple locations;

### Nice to have

- Information technology in the banking and insurance domains;
- Good technical expertise in Java 8, JEE (JPA, REST, EJB, ...), Spring, Spring Boot, SQL and Linux;
- Enterprise Service Bus; Apache Camel;
- Layered service architecture;
- Experience in UML-based analysis techniques (Enterprise Architect);
- Multi-team Agile development environments;
- Unit tests, technical integration tests, Test-Driven Development;

## WHAT ABOUT YOUR NEXT STEP ?

### WHAT WE OFFER

## SERVICES & EXPERTISE

We offer you expertise in **Open Source** frameworks, tools and libraries. O2XP is **oxygen** for your **business**. What about your next step?

### DEVELOPMENT

Api? Api Gateway?  
 Micro-services?  
 Serverless  
 development? Java?  
 C#/.Net? Angular?  
 React? UX (User  
 Experiences)? Let's get  
 in touch. We have a  
 solution for you.

### INTEGRATION

You need to integrate  
 your existing solutions?  
 You need to  
 communicate with  
 other data providers?  
 We have lots of  
 expertise in these fields  
 using Open Source tools  
 and libraries.

### DEVOPS, AGILE, AUTOMATISATION

Our daily work in on the  
 field. We are using the  
 customer tools and  
 procedures. We can help  
 you to improve the  
 processes (CI/CD).

### CLOUD (AWS, AZURE)

So much to say there.  
 From Lambda  
 development to Ansible  
 deployment and the  
 use of Kubernetes (+  
 Docker) passing by  
 Kong Api Gateway or  
 AWS Api Gateway.

### OUR MINDSET

## DNA

Young company, mix of youth and experiences, flat structure, tribe spirit where colleagues are human being.

### DAY 1 COMPANY

We are a Day 1  
 Company. Every day is a  
 new day where  
 experimenting,  
 inventing and  
 innovating is the norm.  
 We help our customers  
 through innovation.

### LEARN IT ALL

We have a 'learn it all'  
 culture where we  
 practice the 4C  
 leadership (creating,  
 collaborating, changing  
 and challenging).

### INTELLIGENT FAILURE

We embrace intelligent  
 failure where 'fail fast,  
 fail cheap and move on'  
 is a good rule for us and  
 for our customers.

### TRUST

We trust our colleagues.  
 We built the future with  
 young and experienced  
 people. Our customers  
 embrace our dynamism,  
 culture of innovation and  
 share our successes.
